2. SYSTEM OVERVIEW

The software being handed over under this Agreement is described as follows:

Product Name	Seven Waves Restaurant ERP
Version	2.0.0 (Production Release)
Platform	Web · Android APK · Desktop (Windows)
Framework	Vue 3 + Quasar Framework v2 (Vite)
Delivery Date	April 7, 2026

2.1 Modules Delivered

- Point of Sale (POS) — Full-featured cashier terminal with KOT, quick cash, receipt printing
- Kitchen Display System (KDS) — Real-time order management and KOT dispatch
- Finance Module — Journal Entries, Chart of Accounts, General Ledger, Bank Reconciliation
- HR & Payroll — Employee management, attendance tracking, payroll processing
- Procurement — Purchase Orders, GRN, AP Invoices, Supplier management
- Inventory Management — Stock tracking, UOM conversions, stock adjustments
- Waiter App — Mobile-first table ordering for floor staff (Android APK)
- Manager Dashboard — Real-time KPIs, analytics, AI-powered system audit alerts
- Delivery App — GPS-enabled driver navigation with real-time routing
- Customer Portal — QR-based table menu, order tracking, loyalty programme
- Admin Panel — User management, branch settings, RBAC, AI system health monitor
- Reports & Analytics — Finance, HR, Sales, Procurement dashboards with export

3. DELIVERABLES

3.1 Software Deliverables

- Production-deployed web application
- Android APK — Seven Waves Mobile (Waiter, Manager, Delivery)
- Windows Desktop Installer (.exe)

3.2 Documentation Deliverables

- This Software Delivery & Handover Agreement
- Admin user guide

4. SECURITY & ACCESS CONTROL

4.1 Implemented Security Measures

- Row Level Security (RLS) enabled on all database tables
- Role-Based Access Control (RBAC) — Admin, Manager, Finance, HR, Cashier, Waiter, Kitchen, Delivery
- All 28+ reporting views converted to SECURITY INVOKER (no privilege escalation)
- ~140 PostgreSQL functions hardened with fixed search_path
- Frontend route guards enforce role-based page access
- Rate limiting on QR authentication endpoints
- HTTPS enforced (Vercel SSL)

4.2 Client Responsibilities

- Manage user roles and permissions through the Admin Panel only
- Regularly review the Admin AI Security Audit alerts

5. WARRANTY & POST-DELIVERY SUPPORT

5.1 Warranty Period

The Developer warrants that, upon delivery, the Software shall perform substantially as described in this Agreement. The following warranty terms apply:

Warranty Period	30 (Thirty) calendar days from handover date
Coverage	Bug fixes for defects present at time of delivery
Excluded from Warranty	Modifications by Client, third-party service outages, data corruption due to misuse
Response Time (Critical)	Within 24 hours
Response Time (General)	Within 72 hours

5.2 Out-of-Warranty Technical Support

The Service Provider provides a **one (1) year limited warranty** starting from the date of system handover. This warranty strictly covers the following:

- **Bug Fixes:** Identification and resolution of any technical errors, glitches, or system bugs found within the existing codebase.
- **System Stability:** Ensuring the ERP functions as per the agreed specifications at the time of delivery.

5.3 Out-of-Scope and Feature Development

Any requests falling outside the scope of "bug fixes" shall be treated as new requirements and are not covered under the one-year warranty. These include:

- **New Features:** Addition of new modules, reports, or functionalities not included in the original project scope.
- **Design Changes:** Modifications to the existing user interface or workflow logic.
- **Third-party Integration:** Integration with new external APIs or hardware.

6. CONFIDENTIALITY

Both parties agree to keep confidential all proprietary information, credentials, business data, and technical specifications shared during and after the development of this Software. This obligation survives the termination of this Agreement for a period of three (3) years.

11. EXECUTION & SIGNATURES

By signing below, both parties confirm that they have read, understood, and agreed to all terms and conditions set forth in this Agreement.
